## WHO WE ARE AND WHAT WE DO

With roots dating back to 1875, our Portland, Maine location has now been in operation for over 50 years. Our services include shop-fabricated piping systems, ASME code vessels, and many other specialized custom-fabricated items. Our in-house engineering and drafting capabilities provide you with detailed drawings and product data submittals to meet your project's requirements. We remain committed to providing superior products, high-quality work, and on-time deliveries. With our trusted reputation, project diversity, and customer satisfaction, we continue to be unmatched in our industry.
